Alexia Gonzalez Galarza

Pontificia Universidad Católica del Perú (Peru)
Environmental Engineering

Alexia Gonzalez studies Environmental Engineering at Pontificia Universidad Católica del Perú, one of Peru's most prestigious universities. She analyzed experimental roasting processes for Amazonian coffee beans in the Electronic Nose project as part of Re-Inventa, a STEM research and innovation seedbed. Alexia was selected Director of Student Wellness for the Student Association of Environmental and Sustainable Engineering by a review committee that noted her strong commitment to innovation in her finalist interview. She encourages herself and others to embrace uncertainty to create new opportunities, which is why and how she became a 2026 Global Student Ambassador.

Amanda Lins

UNINTER (Brazil)
Economics

Amanda Lins is an Economics student at UNINTER and an ANBIMA-certified investment professional, a credential that represents rigorous qualification and adherence to Brazil's highest financial market standards, with professional experience at Bradesco Bank, one of the largest banks in Latin America and a market leader by size and reach in the Brazilian financial system. Her academic and professional trajectory demonstrates a consistent focus on investments and financial analysis, while her engagement with languages and reading strengthens her ability to communicate, adapt, and perform in international corporate and academic environments. She believes that understanding both numbers and words is the key to making smarter decisions and building a meaningful career.

Ana Carolina Rezende

UNINTER (Brazil)
Visual Arts

Ana Carolina holds an Associate's degree in Business Administration and is pursuing a Bachelor's in Visual Arts at UNINTER and a Film and Audiovisual Production degree at the Federal University of Sergipe (UFS). A lifelong art enthusiast, she founded and led her high school's Fine and Performing Arts Club in Cachoeira Paulista, São Paulo. Ana writes and acts in plays and curates exhibitions to democratize access to art. A native Portuguese speaker, she achieved fluent English, intermediate Italian, and is advancing in Spanish primarily through personal dedication. Ana enjoys video editing and sharpening her skills on her YouTube channel.
www.linkedin.com/in/ana-carolina-rezende

Andrea Bustamante Ramírez

Pontificia Universidad Católica del Perú (Peru)
Psychology

An aspiring triathlete and a Psychology student at the Pontifical Catholic University of Peru (PUCP), Andrea has a passion for Clinical and Sports Psychology. She strives to help others find balance, wellbeing, and purpose in their lives. Andrea graduated from high school with academic distinction. She actively volunteers to provide educational support and opportunities for children. Recognizing the value of green spaces to healthy human development, Andrea launched an ecological initiative in her neighborhood. An advanced speaker of English and French (B2), she is currently preparing for an international student exchange program.

Andrea Tercero

Universidad del Pacífico (Peru)
Marketing

Andrea is pursuing a degree in Marketing at the Universidad del Pacífico, Peru's premier university in shaping the country's economic, financial, and public-sector thought. She is passionate about connecting technology and social impact. Andrea is motivated by contributing to the growth of innovation ecosystems in Latin America and empowering young leaders through Lead UP, a leadership and innovation community to leverage technology as a tool for positive and sustainable change. She has experience in entrepreneurship, innovation, and project management gained through her active engagement in Emprende UP, the University's startup ecosystem.

www.linkedin.com/in/andrea-tercero-montañez

Anghelo Basauri Escudero

Universidad Peruana de Ciencias Aplicadas (Peru)
International Relations

Anghelo Basauri is a double-degree student in International Relations at UPC in Peru and Philosophy, Politics, Economics, and Law at the University of Arizona. A member of the Academic Excellence Group, he has a strong interest in how international trade and diplomacy shape global policy. Since 2025, Anghelo has been part of the Corporate Relations team at Deinsa Global, where he applies his analytical skills to the business world. He was selected to the 2026 Internship Program at the General Secretariat of the Andean Community, earning a university scholarship. In the Global Student Ambassadors program, Anghelo is focused on strengthening his leadership and intercultural skills to build a career in economic policy that delivers regional impact.

www.linkedin.com/in/anghelo-basauri-escudero-531ab0203

Anne Julieti da Silva

Inspira (Brazil)
Economics

Anne Julieti is an undergraduate Economics student and full scholarship recipient at Insper, one of Brazil's most rigorous and respected business and economics schools. She places strong value on international experiences as a central part of her academic and personal development, which led her to complete an exchange program at IE University in Madrid and participate in a winter program focused on finance and sustainability in Finland and Sweden. Her interests span multiple areas of economics, including public policy, capital markets, and consulting.
www.linkedin.com/in/anne-julieti-business/

Ariana Estrella

Universidad Peruana de Ciencias Aplicadas (Peru)
International Relations

Ariana Estrella is in her fourth year of International Relations at the Peruvian University of Applied Sciences (UPC). She is passionate about global issues, with a strong interest in politics and a deep appreciation for world history. Ariana won an environmental hackathon at UPC in a rigorous program that tested students' abilities to solve global challenges. She actively volunteers to help teach children living in conditions of poverty and vulnerability.
www.linkedin.com/in/ariana-estrella-oliva-49746a386/

Armando Barros Junior

UNINTER (Brazil)
International Relations

Armando is a Brazilian-born ballet dancer, copywriter, and International Relations student. Classically trained, he has performed professionally with Joburg Ballet in South Africa and with the Wrocław Opera in Poland. Off stage, he works as a freelance copywriter producing digital content, corporate blog articles, and Instagram marketing strategies. He is a seasoned public speaker. As a student of International Relations, his work is guided by a sharp analytical perspective that engages with questions of race, memory, and power, shaped by lived experience as a multiracial, LGBTQIA+ individual, with a focus on cultural diplomacy and global politics.
www.linkedin.com/in/armando-barros-j%C3%BAnior-8154361b4/

Arthur Salles

UNINTER (Brazil)
Political Science

A seasoned journalist and marketing professional, Arthur Salles has built his career at the intersection of hard news, strategic communication, data analysis, and impactful storytelling. He is currently a Reporter at Banda B, a Curitiba-based news organization in Paraná, Brazil that delivers fast, locally focused coverage. Arthur develops integrated communications campaigns to achieve measurable results and conversion optimization. Driven by intellectual curiosity and a deep appreciation for distinctive storytelling, data and aesthetics, he constantly seeks to sharpen his analytical and creative skills.

www.linkedin.com/in/arthursalles

Bruno Saito

UNINTER (Brazil)
Software Engineering

Born and raised by Brazilian parents in Japan, Bruno Saito is a Software Engineering student at UNINTER. He has experience developing practical and creative software solutions using Python and JavaScript. His projects include a Discord bot that generates interactive polls, a console-based UNO game focused on object-oriented design and game logic, and a Chrome extension that adds customizable delays between videos on YouTube and TikTok to enhance user experience. A Japanese Brazilian who has traveled to Australia, he has strong cross-cultural communication skills, adaptability, resilience, and a global mindset that he will leverage in the tech sector. Bruno speaks native Portuguese, fluent English, and intermediate Japanese.

Caroline Liebl

UNINTER (Brazil)
Political Science

A lawyer based in the Brazilian Amazon, Caroline Liebl helps local farmers and ranchers access international markets. After working as a public servant, professor, and university head, she embraced her roots in São Félix do Xingu, Pará, where her family has lived for over 35 years. She translates complex on-the-ground realities of environmental enforcement, land tenure, precarious infrastructure and legal uncertainty while assisting Amazonian producers in overcoming barriers through legal advocacy, strategic guidance, and professional connections. Caroline holds advanced degrees in Public Policy, Law, and Agribusiness Management. A member of the Brazilian Union of Environmental Advocacy, she is pursuing a degree in Environmental Technology.

www.linkedin.com/in/caroline-liebl-18699a97/

Clara Moreira

UNINTER (Brazil)
Software Engineering

Clara Moreira is a Software Engineering student at UNINTER and a Front-end Developer. She discovered her passion at the intersection of technology and education in 2023. Clara's work includes helping a publishing company modernize its platform to prepare thousands of public-school students for Brazil's National Basic Education System Assessment (SAEB). Currently, she is building a system to teach English to children in her home city of Caruaru, Pernambuco. Clara's goal is to use technology to help underprivileged children access opportunities that would otherwise be beyond their reach. A fluent English speaker, she earned her first university degree in Dentistry.

www.linkedin.com/in/claramoreira/

Cristhian Laura Accarapi

Pontificia Universidad Católica del Perú (Peru)
Industrial Engineering

Cristhian Laura is an Industrial Engineering student at the Pontificia Universidad Católica del Perú (PUCP), with a sharp focus on international logistics and operations management. He combines academic excellence with technical expertise in auditing Integrated Management Systems, covering ISO 9001, 14001, and 45001 standards. A budding entrepreneur, Cristhian is launching a micro-boutique. As a Global Student Ambassador, he is driven by a vision to apply engineering principles to professionalize local industries and contribute to the sustainable economic development of his country.

www.linkedin.com/in/laura-cristhian

David Lucas Santos de Oliveira

UNINTER (Brazil)
Systems Analysis and Development

David Lucas is a Systems Analysis and Development student at UNINTER. He has hands-on experience as a Software Development Intern working on systems for institutions including Barricoop, a pioneering credit cooperative in Brazil. Passionate about technology and continuous learning, he seeks to build an international career in software development.

www.linkedin.com/in/david-santos-programador-full-stack

Erika Luiza Borges Frank

UNINTER (Brazil)
Digital Marketing

Erika Frank is a student of Digital Marketing at UNINTER with a focus on the health sector. She has certifications in UI/UX design, Digital Marketing, Cybersecurity, and Data Analysis and basic programming knowledge in Python and R. Before discovering her passion for data analytics, Erika earned a Master's degree in Entomology at the Universidade Federal da Grande Dourados, a public university in Brazil's Center-West that plays an important role driving development in Mato Grosso do Sul. She has experience as a volunteer professor and researcher. Her knowledge of digital strategy and science helped her double attendance at a scientific meeting focused on Entomology and Biodiversity Conservation and add 70,000 new followers to one of her top clients in just seven months.

www.linkedin.com/in/erika-frank

Ester Reges

UNINTER (Brazil)
Systems Analysis and Development

Born in Alto Paraíso de Goiás, an ecotourism town of 10,000 in Brazil's Central-West region, Ester is a Systems Analysis and Development student at UNINTER. She has a strong interest in learning and personal development, which attracted her to the tech sector. Ester successfully juggles her academic studies with full-time work as a bi-lingual receptionist. Her goal is to secure international work in systems development that allows her to keep her small-town roots while exploring the world. She recognizes that dedication and continuous learning are essential to achieving her professional goals and personal commitment to giving back.

www.linkedin.com/in/ester-reges-656470392

Evangelina Lapitz

Universidad Católica del Uruguay (Uruguay)
Environmental Engineering

Born and raised in Minas, a city of 40,000 in southeastern Uruguay, Eva Lapitz is an Environmental Engineering Student at UCU. She co-founded Greengineering, a youth-led environmental platform launched with financial support from the U.S. Embassy's Green Academy program. In 2024, Eva joined a national youth network advancing climate advocacy and policy engagement in Uruguay (RJJCU). Selected for the U.S. Embassy's Green Academy that same year, she strengthened her leadership skills, deepened her environmental expertise, and advanced her English proficiency. She is now preparing to launch a youth environmental volunteer network in her hometown, empowering teenagers to take action and become leaders in their community.

www.linkedin.com/in/eva-lapitz-b8670b2a2/

José Francisco Oblitas Kahn

Universidad del Pacífico (Peru)
Business Administration

José Oblitas is Chief Operating Officer (COO) at Domber, a digital marketplace for home services and skilled trades. He is an entrepreneur and a startup advisor focused on building, validating, and scaling early-stage ventures in Peru. Winner of Startup Perú 11G and Primer Paso 2025–II, José combines strategic thinking with relentless execution. He leads Domber's commercial division, driving business development, strategic partnerships, operational optimization, and revenue growth. José also serves as an Ambassador at Emprende UP, the entrepreneurship ecosystem at Peru's top business school, and Advisor at Junior Achievement, mentoring young founders. Beyond Domber, José is building a personal brand focused on entrepreneurship, mindset, and personal growth, empowering students and young professionals to think bigger, execute faster, and build with purpose.

www.linkedin.com/in/jose-oblitas-kahn

Júlia do Carmo Pereira

UNINTER (Brazil)
Portuguese Language

Julia do Carmo Pereira is pursuing a degree in Portuguese Language at UNINTER. She holds a bachelor's in Environmental Sciences from the Federal University of Paraná (UFPR), where she earned a scholarship to study abroad for a semester at the Polytechnic Institute of Bragança, Portugal in 2025. That international experience was life changing. Julia has academic experience in microplastics and air quality lab analysis and environmental education. She is an enthusiastic student and teacher of foreign languages with a passion for digital journalism. Julia now has her sights set on another international experience, this time focused on botany, endangered species, and environmental education literature.

www.linkedin.com/in/j%C3%BAlia-do-carmo-pereira-5a06ab359/

Juliana Donansan

UNINTER (Brazil)
Literature

Born in the countryside of Paraná, Juliana has enjoyed writing stories since she was 11. At 13, she began writing the first book of the *Alex Wiltershey* saga (fun fact: she wrote the entire book by hand in a little notebook!). While creating the story of this red-haired boy from Rio Grande do Sul, she ended up falling completely in love with the beauty of pouring her heart into words. *Alex Wiltershey and the Ten Powers* was her first publication, at 17. At 19, she published the continuation of the series, *Alex Wiltershey and the Labyrinth of Victorio*. At 20, she published her third book, *Alex Wiltershey and Three Options for the Future*. And if it's up to Juliana, this is just the beginning of the fire-haired boy's story!

www.julianadonansan.com.br/

Kellen Zamuner Aktu

UNINTER (Brazil)
Veterinary Medicine

Kellen Zamuner is a Veterinary Medicine student at UNINTER and an Intuitive Animal Communicator dedicated to strengthening the connection between humans and all living beings. With a prior degree in Business Administration, she integrates analytical insight with compassion to advocate for animals as sentient beings that deserve respect. Driven by a deep love for life in all forms, she studies English to pursue international veterinary experiences and expand her global impact in animal welfare, ethical care, and conscious coexistence.

www.linkedin.com/in/kellen-zamuner-54842a287/

Lara Oliveira

UNINTER (Brazil)
Communications

A recipient of the “Best Student at USP” award from Brazil’s top public university, Lara has eight years of experience in the not-for-profit sector centered on gender equity and access to culture and education. She is on the Board of Trustees at *Mulheres Aceleradas* Foundation, where she serves as Communications and Marketing Coordinator. In the private sector, Lara has structured and documented processes for more than 150 Brazilian companies undergoing franchising. She was awarded two academic merit scholarships from USP and one from CNPq, Brazil’s federal agency for funding and advancing research and innovation. Her educational background integrates music, communication, project management, and administration, giving her a holistic perspective on organizations and leadership.

www.linkedin.com/in/les-oliveira

Luanda Alexandrina da Silva Ramos

UNINTER (Brazil)
Production Engineering

Luanda, a student of Business Administration at the Federal University of Uberlândia and of Production Engineering at Uninter, has a strong aptitude for economics and financial mathematics. At 19, she ranked first in the Business Administration admissions test and scored 920/1000 on the ENEM essay, earning a full scholarship in Production Engineering. Known for her ability to learn independently, she provides academic support to classmates as a tutor. This experience has shaped her interest in pursuing an academic career in Economics and becoming a university professor.

www.linkedin.com/in/luandaramos

Luna Leyton Morales

Icesi University (Colombia)
Political Science

Luna Leyton Morales, a Political Science student at Universidad Icesi, has a passion for analytical, interdisciplinary approaches to global affairs. She has experience in data science and research methodologies applied to geopolitical analysis, international cooperation, and data-driven research. Luna is a member of RedIntercol, a national network that connects universities to strengthen the internationalization of higher education. She has participated in the Valle Visible and Génova research groups and in the Political Science Student Association (AECIP). Luna co-authored a poetry book and presented a conference paper that will be published in an indexed academic journal. She speaks fluent English (C1) and intermediate French (B1).

www.linkedin.com/in/luna-leyton-morales-2374a9392/

Manuela Barbachan

Universidad Católica del Uruguay (Uruguay)
Computer Engineering

Manuela is an undergraduate student of Computer Engineering at the Catholic University of Uruguay. She is interested in how emerging technologies and management practices come together to support better decision making in organizations. In addition to her native Spanish, Manuela speaks fluent English and Portuguese. She is comfortable working in multicultural environments and enjoys using her strong analytical skills to solve complex problems. Manuela's professional goals include taking on increasing responsibilities and contributing to diverse, international teams.

www.linkedin.com/in/manuela-barbachan-valentini-209a0a27b/

Maria Clara Ferreira Freitas

UNINTER (Brazil)
International Relations

Born and raised in Uberaba, Minas Gerais, a city of 340,000 known for agribusiness and education, Maria Clara Ferreira is an International Relations student at UNINTER. Her interests focus on Latin America and Asia and global North–South relations. She has strong interests in international history and the challenges faced by developing countries, including inequality, poverty, world hunger, social justice, workers' rights, and in how international cooperation and public policies can contribute to sustainable development. Maria Clara is fluent in English and speaks native Portuguese.

www.linkedin.com/in/maria-clara-ferreira-freitas

María Fernanda Guzmán Quiroz

Universidad Peruana de Ciencias Aplicadas (Peru)
International Relations

María Fernanda Guzmán Quiroz is pursuing an undergraduate degree in global affairs, diplomacy, and intercultural communication. She is deeply interested in understanding complex international dynamics and applying her academic knowledge to real-world challenges in public policy and international cooperation. She has engaged in academic and extracurricular activities that strengthen analytical, research, and cross-cultural skills.

Mateus Carvalho

UNINTER (Brazil)
Software Engineering

Mateus Carvalho is a Brazilian Army officer and Head of the Bidding and Contracts. He is responsible for coordinating procurement and contract execution under tight deadlines. Mateus is pursuing a Software Engineering degree at UNINTER as part of his career transition to the private sector. He is focused on automation, full-stack development, and project management. Since age 14, he has learned fluent English by building a global network of online friends to practice conversation. In 2024, Mateus spent 200+ days deployed in Southern Brazil to support the local population in recovering

from intense flooding. He is the proud father of a newborn daughter, which only adds to his motivation for career success and leading by example.

www.linkedin.com/in/mateus-carvalho-238711249/

Moani de Paulos Morais

UNINTER (Brazil)
Advertising

Moani de Paulos Morais studies Advertising at Uninter and works at Anmark Marcas e Patentes as a Brand Consultant and Marketing Strategist. She helps scale brands using Webseek to conduct thorough trademark and patent clearance and Meta Ads for lead generation, conversion optimization, and scalable growth. Previously, she was responsible for end-to-end recruitment processes and behavioral interviews in English at GR Solutions in HR. Moani plans to finish her degree at UNINTER in Lisbon, Portugal and complete an innovation project in fragrances for L'Oréal Brandstorm.

www.linkedin.com/in/moanimorais

Nataly Dolavale Freitas

UNINTER (Brazil)
Advertising

Nataly Dolavale studies Advertising and Publicity at UNINTER and holds a Marketing degree from the Catholic University of Rio Grande do Sul (PUCRS). She works in Growth and CRM Marketing at the multinational iFood, where she combines creativity and data analysis to deliver scalable growth and customer satisfaction. Passionate about global marketing and cross-cultural communication, Nataly is refining her international perspective and fluent English as a Global Student Ambassador. Her goal is to build an international career in Marketing in France.

<https://www.linkedin.com/in/nataly-dolavale/>

Nathali Sampaio

UNINTER (Brazil)
International Relations

Nathali Sampaio is an Entrepreneur, Project Director, and International Relations student at UNINTER with over a decade of experience in audiovisual production. She is the founder of Purple, a brand specializing in strategic audiovisual content at the intersection of communication and business strategy. Nathali serves corporate clients, partner agencies, and their brands. Having lived and studied in England and worked on multicultural teams, she is focused on trade and cross-border development. Nathali is also studying International Logistics at FGV, a top business and economics school, in an extension program focused on international trade and import/export operations. She actively engages in humanitarian initiatives, including work with refugees in Iran.

www.linkedin.com/in/nathali-sampaio-19aa6869

Nathalia Ilovatte

*UNINTER (Brazil)
Literature*

Nathalia is a UX Writer in a B2B ecommerce company who is pursuing a Language Studies degree at UNINTER. She has experience developing user-friendly digital products for agribusiness and creating seamless navigation experiences in web and mobile apps. Nathalia previously earned an undergraduate degree in Journalism and a post-graduate degree in User Experience. Her work as a UX Writer combines linguistics and design knowledge with strategic thinking to create accessible and inclusive digital products. She enjoys working on projects that make the tech sector more welcoming to and respectful of women, especially mothers.

www.linkedin.com/in/nathaliailovatte

Nestor Saavedra

*Pontificia Universidad Católica del Perú (Peru)
Mechatronics Engineering*

Nestor is in his final year of Mechatronics Engineering at the Pontificia Universidad Católica del Perú (PUCP). Originally from Iquitos, a remote Amazonian River city in northeastern Peru, he has an innate understanding of how engineering should respect and adapt to the natural environment. Nestor is currently an intern at the Rural Sector Support Group, a nonprofit delivering decentralized solar energy systems in rural areas. At PUCP, he is head of suspension and steering for Nazkart BAJA SAE, a university engineering team that competes in the international off-road BAJA SAE competition. Nestor enjoys tennis, ping pong, being a musician, and putting his fluent English to work to build international friendships. His professional goal is to develop and deploy photovoltaic energy systems that are technically sound and environmentally responsible.

Nicolás Mellado

Universidad ORT Uruguay (Uruguay)
Entrepreneurship

Nicolás Mellado is the Co-founder and CMO of Realtic, a real estate start-up that uses AI and digital tools to streamline property sales. He brings his background in IT support and early-stage ventures to understand complex technology problems and deliver efficient business solutions. Nicolás has helped train and educate more than 350 real estate professionals in Uruguay and Argentina, guiding organizations through digital transformation and AI adoption. He is experienced in defining product-market fit and combining strategic thinking with execution. In parallel with his work at Realtic, Nicolás shares insights with founders and tech professionals on startups, AI, personal branding, and sustainable careers. He is passionate about using technology to empower people and improve decision-making.

www.linkedin.com/in/nicolasmellado

Pablo Zambrano Molano

Icesi University (Colombia)
Political Science and Economics & International Business

Pablo Zambrano Molano focuses on global governance, international political economy, and the interaction between markets, institutions, and public policy in his studies at Icesi University in Cali, Colombia. He is an active student leader, serving as Vice President of Logistics for Beta Gamma Sigma, a global honor society of top students in AACSB-accredited programs. Pablo contributes to the chapter's strategic planning, academic event coordination, and operations management. He enjoys building his leadership and teamwork skills in a busy, challenging environment. In the future, Pablo plans to use his fluent English while pursuing graduate studies in economic development and public policy abroad.

www.linkedin.com/in/pablo-zambrano-2b238826b

Rafaela Magri Jacob

UNINTER (Brazil)
International Relations

Rafaela Jacob studies Medicine at the State University of Ponta Grossa (UEPG) and double majors in Political Science and International Relations at UNINTER. She published her first book on autism, *O Labirinto Oculto: Autismo, o Desafio de Ser Diferente*, at 16 years old. Rafaela advocates for the rights of

people with disabilities on podcasts and in her research and writing. Her work on metabolic diseases of autistic children and late treatment of cryptorchidism received financial support from PIBIC-CNPq, a federal research scholarship for undergraduate students. Rafaela's passion for inclusion and health politics will be central to her professional work after completing her university studies.

Robson Alexandre

UNINTER (Brazil)
English Language

Robson Alexandre built a successful first career in logistics for large corporations including Coca-Cola FEMSA, Marfrig Global Foods, and Leroy Merlin. At 37, he discovered a passion for education and launched a new career, pursuing a degree in English Language at UNINTER. Robson is excited to use the skills he acquired motivating and managing teams for the benefit of his future students. At Coca-Cola, he managed 60 direct reports and helped oversee daily delivery of more than 300,000 cases with a fleet of 2,400 vehicles. At Marfrig, he supervised the cold-chain beef distribution operation, managing KPIs in a complex supply chain. Robson enjoys sports photography, which is both a passion and source of income. He holds an undergraduate degree in Business Administration and MBA in Logistics from FGV.

www.linkedin.com/in/robsonalesilva

Romina Ramirez

Universidad Peruana de Ciencias Aplicadas (Peru)
International Relations

Romina Ramirez is an International Relations student at the Peruvian University of Applied Sciences (UPC). She has a strong interest in data analysis. A member of *Relatia*, a student debate group focused on global affairs, she works on the Partnership and Event Coordination committees. Romina currently serves as a UPC Ambassador, supporting institutional outreach and representing the university in official academic initiatives. She volunteered at APEC, the premier multilateral Asia-Pacific summit that convenes heads of state, ministers, and global business leaders.

www.linkedin.com/in/romina-ramirez-459a5233a/

Santiago Gómez Velásquez

Universidad del Rosario (Colombia)
Law

Santiago Gómez is a law student at the Universidad del Rosario, a top Colombian university recognized for excellence in law and a tradition of educating national leaders since 1653. He was awarded the

Futuro Rosarista scholarship for academic excellence, which allowed him to pursue his lifelong dream of becoming a lawyer. Passionate for private and environmental law, Santiago consistently ranks at the top of his class (GPA 4.6 of 5). He has served twice as an *ad honorem* teaching assistant in Civil Law and in Climate Change courses. In addition, he has held two official teaching assistant positions in Law, Political Science, and Government and in Constitutional and Civic Instruction courses.

www.linkedin.com/in/santiago-g%C3%B3mez-vel%C3%A1squez-937066322

Sheyla Mori

Pontificia Universidad Católica del Perú (Peru)
Mechanical Engineering

Sheyla is a Mechanical Engineering student with a strong commitment to social justice, health, and human dignity. Ranked in the top third of her class, she is part of the Applied Biomechanics and Robotics Engineering Laboratory, where she contributes to the development of a transtibial prosthesis simulator aimed at improving quality of life through technology. With over five years of experience teaching mathematics, she created the YouTube channel “Tutoría Máster,” which provides clear, visual math education that helps students regain confidence. Sheyla serves on the board of ASHRAE PUCP, the student branch of the American Society of Heating, Refrigerating and Air-Conditioning Engineers where she organizes free talks to generate professional opportunities. Sheyla’s goals are to lead collaborative teams and to promote environmental responsibility and equitable access to knowledge.

www.linkedin.com/in/sheyla-mori

Thalia Travassos

UNINTER (Brazil)
Mathematics Education

Thalia Travassos began her career in Human Resources at 19 and, by 26, had earned a postgraduate degree and broad practical experience in the HR field. She is now pursuing a degree in Mathematics Education at UNINTER as part of her long-term goal to apply her interpersonal and management skills to teaching. Thalia has led People Operations and worked in HR at respected companies, including Room 8 Group, PUGA Studios, and HC Assessoria Contábil, an accounting services firm. She has managed payroll, benefits, compliance (eSocial, DCTFWeb, FGTS, INSS), onboarding and offboarding, labor law advisory, policy development, timekeeping systems, and regulatory compliance from small firms to multinational operations. To gain teaching experience, she has worked as a substitute teacher and mathematics tutor for students aged 5 to 17.

Valeria Ricapa Garcia

Pontificia Universidad Católica del Perú (Peru)
Law

Valeria Ricapa is a Law student at Pontificia Universidad Católica del Perú, Peru's leading research university. Deeply interested in philosophy, social justice and politics, she seeks opportunities that help her understand the world through a critical, human centered lens. Valeria is an active member of the PUCP Law School's Social Responsibility Secretariat and is part of RUA, a network of students focused on environmental initiatives, sustainability, and justice. Outside the classroom, she values physical discipline and personal growth through sports, including judo. She treasures her family and admires her younger sister and brother, who inspire her every day.

Viviana Sofia Champy Trujillo

Universidad Peruana de Ciencias Aplicadas (Peru)
International Relations

Viviana Champy is an International Relations student, researcher, and academic writer. In 2025, she was a winner in the Andean Community's university article competition on Community Law, an achievement that strengthened her dedication to regional integration processes. Viviana was a volunteer author and analyst at Green Dreams, a youth-driven environmental organization that empowers emerging leaders to advance sustainability. She was also a researcher at the Center for Political Studies (CEP), a university-based association focused on academic debate and research.

Wilson de Sousa Silva

UNINTER (Brazil)
Software Engineering

Wilson de Sousa Silva is a Software Engineering student at UNINTER who combines a solid analytical background as a Bachelor of Law with over 20 years of experience as a civil servant. A Karate black belt, he applies the discipline and persistence of martial arts to his studies in Full Stack development, focusing on learning how to build solutions with Java (Spring Boot), Python (Django), and AI agents. He is proficient in English (C2 certification), speaks native Portuguese, and has a basic command of Spanish and Russian, which supports his communication in multicultural environments. Wilson aims to bridge his public service background with software engineering to contribute to innovative teams and technical problem-solving.

Yesli Izquierdo Vargas

Pontificia Universidad Católica del Perú (Peru)
Law

Yesli Izquierdo is a Law student at the Pontificia Universidad Católica del Perú, Peru's leading research university. In 2023, she earned a scholarship that enabled her to pursue her dream of becoming a distinguished lawyer and diplomat. Yesli has continuously refined her English skills over the years, reaching a fluent level through books and online resources. Focused on building a global career, she recognizes that effectively representing clients requires a deep understanding of people. Through her experience in client services, Yesli has refined her ability to stay calm under pressure and to connect with people from diverse backgrounds. She is currently learning Latin and French and stays active swimming and running.
